YOU cannot buy flour as fine, white, pure and nutritious as Royal Household under any other name.

There is no other flour in Canada upon which half so much money is spent to insure perfect purity—just think for a moment what that means to the health of your household—how very important it is that your flour, above all things, should be *absolutely* pure.

Royal Household Flour

is the best—most wholesome—carefully milled flour to be had in this country. The Ogilvie name and trademark are on every barrel and sack—a guarantee from the maker to the consumer. Tell your grocer you must have Royal Household.

Common soaps make the soil more so. The Pioneer Range makes the life.

Pandora Range

It is comparatively easy to build a range that will make a lot of heat, but to require the exact science of Pandora Range building to produce a range that will use all the heat in the coal without waste. A common range may burn twice the coal that a Pandora will, and yet do only half the work. If you use a Pandora Range you can be certain that your coal money is not wasted, but used.

Sold by authorized dealers everywhere. Write for booklet.

THE QUEST OF THE GOLDEN GOOSE

In hunting for a business or occupation most people are really hunting for a goose that will lay golden eggs.

The commonest aspiration is to so construct and devise a business enterprise that it becomes almost automatic—so that when the play-fowl touches the blood one may "let go," sit at one's ease, and watch for the daily golden egg with a certainty of its appearance.

BISON FURNACE

In an actual test under ordinary conditions a prominent Professor of Physics reports the following results with a Bison Hot Water Heater:

Starting with the water at 65° below zero the machine was applied to temperatures in excess of 150° in the upper section.

Four minutes later it went up to 137°.

After 20 minutes after starting it was at 194°.

The bottom section also was at 194° after five minutes—the great gain in the top section.

After 30 minutes, 15 hours after it had been left for the night, the water was at 125° in the top section and 100° in the lower.

In the furnace the water works upon the main in the immediate of the upper section.

In the Bison Furnace the water in the upper section is heated by the lower section and the water in the lower section is heated by the upper section.

Black Jackets

THE MOST FASHIONABLE

Fashion has decreed black to be the fashionable garment for autumn and winter wear. Tweeds are rapidly on the wane and will be rapidly replaced in favor by black, and after all would be handsomer than black for a dressy coat. It can be worn anywhere and with anything and always looks a dignified appearance to the wearer.

We have made provision for the fashion by importing an elaborate display of black coats for both ladies and men. We think we are justified in saying that a choice list could scarcely be seen anywhere.

The black coats are particularly pretty this season with their handsome trimmings of fur and embroidery.

When you are ready for your new coat, call into our Mantle Department for a few minutes and let us show you the latest styles. New ones keep arriving almost every day.

A RHEUMATIC SUFFERER WROTE BY MR. WILLIAM PINK PILLS. Rheumatism is now in its most virulent form. I am unable to get out of bed. I have been suffering from this disease for many years. I have tried every remedy, but nothing has helped me. I am now so weak that I can scarcely walk.

A Mr. James "rehearsal" who had been suffering from rheumatism for many years, and who had been unable to get out of bed for many months, writes that he has been cured by the use of Pink Pills.

The Bishop of Carleton recently remarked that the most remarkable thing about the Church of England is that it is so small a proportion of the population, and notwithstanding this, it is so powerful in the world. He said that the Church of England is the only church in the world that is so small and yet so powerful.
